1. Start by logging in the credentials of any user registered on your Auth0 Dashboard
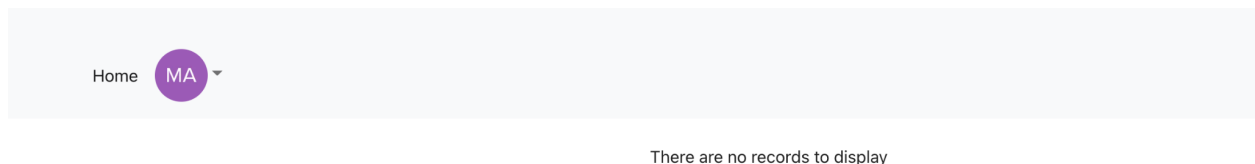

Home Log in

2. If login is authenticated via Auth0, you should be able to see the list of applications with the actions and triggers tied to them (applications). You may expand each row to check other application details such as application type, application id, etc.

Home MA ▾

	Application	Action	Trigger
⌄	Auth0 Management API (Test Application)	Ageware - Verify Age v1	post-login (v2)

```
{
  "app_id": "nx427TngdkrlVqLYSDE9hlu8WIqI7El0",
  "app_name": "Auth0 Management API (Test Application)",
  "app_type": "non_interactive",
  "action_name": "Ageware - Verify Age v1",
  "trigger_name": "post-login (v2)"
}
```

	Application	Action	Trigger
›	Prototype API (Test Application)	Ageware - Verify Age v1	post-login (v2)
›	Carmela sample	Ageware - Verify Age v1	post-login (v2)
›	All Applications	Ageware - Verify Age v1	post-login (v2)

Rows per page: 10 ▾   1-4 of 4 |< < > >|

If your current tenant does not have any action, the screen below will be shown

Home MA ▾

There are no records to display

3. To log out, just click on the popover beside the avatar. That's it!
